

## **Behaviour Policy at a glance**

**2025-26**

All children start the morning and afternoon session (Year 6 only the morning) with no numbers.

If a children begins to show challenging behaviour the behaviour number system begins:

- 1 warning – reminder to behave
- 2 warnings – reminder to behave

If the behaviour continues the number system escalates:

- 3 warnings – miss break time
- 4 warnings – go to the next-door class room for a set period of time with work to complete
- 5 warnings – a member of SLT to be consulted with the possibility of missing a lunchtime play.

### **Lunchtimes**

#### **Infant lunchtimes**

During lunch times:

- a child should first be given a time out – this can be a 5-10 minutes downtime sat on the wall.
- The class teacher must be informed at the end of the lunch that this has happened in the class behaviour book.
- If the poor behaviour continues, the class teachers should be found and an appropriate consequence should be given.

### **Junior Lunchtimes**

During lunch times:

- a child should first be given a time out – this can be a 5-10 minutes downtime stood by a wall facing outwards and towards the playground.
- The class teacher must be informed at the end of the lunch that this has happened in the class behaviour book.
- If the poor behaviour continues, the Midday Meal Supervisors will discuss the behaviour with the Class teacher who will decide an appropriate amount of time that the children should sit outside the staffroom.
- In more serious events, or repeat occurrences, SLT will be consulted.

### **Internal Exclusion**

Reintegration meeting
